INTRODUCTION

Tea Statistics published by the Statistics Branch of the Tea Board has already completed 16 years of useful existence and the present one is the seventeenth in the series. Statistical information relating to various aspects of the industry and trade in India as well as the world as a whole available at the time of going to press have been incorporated in this issue. Some of the figures are, however, unavoidably of a provisional nature.

Research workers, Economists, Statisticians as well as individuals and [illegible] both in India and abroad—have in the past found this publication very useful and have provided us the encouragement for expanding the scope and coverage of the publication and make it as comprehensive as possible so as to enable a scientific and systematic study of the [illegible] various problems relating to production, export and marketing of tea. It is our earnest hope that the present issue of the publication will carry this objective a step further and will prove itself to be more useful than its predecessors.

The present issue contains 158 tables against 153 tables in the previous issue. Some of the tables have been reoriented according to present needs. The new tables incorporated in the present issue are as mentioned below —

Review of the year 1970-71

The year 1970 had been a very important year for the tea industry as it witnessed certain major developments in both internal and international fields. On the internal [illegible], as a result of radical changes brought about in the fiscal structure on Tea in the 1970-71 [illegible] the industry ushered into an era of increased production and exports. On the [illegible] side, Tea fetched better prices in world markets as a consequence of the [illegible] tion of an informal export regulation scheme withdrawing 90 m [illegible] of tea from the [illegible] cipated level of exports. However, the picture cannot be said to have been entirely [illegible] as *the year also saw labour unrest in the major public warehouses in Calcutta*, [illegible] strikes in Calcutta and London, increase in freight rates on major trade routes, difficulties [illegible] ment of tea and wage increases leading to erosion in the profitability of the industry.

A significant development was the opening of a new auction centre at Gauhati on [illegible] September, 1970, for Assam teas. The purchases at this new centre are however still [illegible] confined to teas for the domestic market.

2. The position regarding production, exports, sales, internal consumption, duties and taxes etc. is discussed below.

Production: The year 1970 registered an all time record crop of 421.8 m. kgs for all India as against the production of 393.6 m. kgs in 1969 thereby [illegible] an increase of 28.2 m. kgs over the previous year. The North Indian tea crop was 319.7 m. kgs [illegible] an increase of 22.1 m. kgs over 1969. South Indian crop was also higher by 6.1 m. kgs than in the previous year. The actual production figures for North India and South India for the last 3 years are given below:—

(Figs. in m. kgs.)

	1970	1969	1968
North India	319.7	297.6	[illegible]
South India	102.1	96.0	[illegible]
Total	421.8	393.6	[illegible]

Exports: There was an overall increase of 10.7 m. kgs in exports in 1970. Total exports of tea from India in 1970 were 208.4 m. kgs as against [illegible] m. kgs exported in [illegible]. [illegible] export earnings were also higher at Rs. 148.8 crores compared to Rs. [illegible] crores in [illegible]. The unit value realised, however, remained at Rs. 7.14 per kg., the same as for the previous year.

3. The objectives of the export oriented [illegible] of February, 1970 have been [illegible] to a great extent in as much as shipments to U.K. [illegible] a [illegible] increase. [illegible] all quantity of tea exported from India was [illegible] U.K. the principal buyer of Indian tea. While the [illegible] overall exports was [illegible] to U.K. picked up from 79.9 m. kgs. in 1969 to [illegible] m. kgs. [illegible]

9·0 m.kgs. The figures of exports to U.K. and other markets for the last 3 years are given below: —

(*Figs. in m.kgs.*)

	1970	**1969**	**1968**
Export to U.K.	98·9	59·9	102·0
Other Markets	109·5	108·8	106·4
Total	208·4	168·7	208·4

4. The reasons for the increased shipments to U.K. are twofold. Following the extremely disastrous prices received in London for 1968 and 1969 teas, producers shipped far less teas to London in 1969. This season the pendulum swung to the other side again. The London stock figure at the beginning of the season was low and this encouraged producers to believe that they would receive satisfactory prices in London.

Secondly, the abolition of export duty and the partial refund of excise duty at the point of export gave an incentive to producers to consign teas to London and also to sell teas privately to buyers abroad. The London stock figure at the end of January 1970 was 67·7 m kgs. as against 105·4 m.kgs. at the same time a year ago.

5. Among the other countries which maintained or improved their position in Indian tea exports, were the U.S.S.R. and East European countries, Ireland, Iran and Sudan whose purchases have shown significant increase in 1970. U.S.S.R. continued to be the second largest purchaser, taking 25·6 m.kgs. as against 24·9 m.kgs in 1969. Exports to other East European countries also increased from 3·7 m.kgs in 1969 to 5·0 m.kgs in 1970. The increase in exports was nearly 1·0 m.kgs to Ireland, 5·5 m.kgs to Sudan (to which country we exported 12·9 m. kgs in 1970) and 0·3 m.kgs to Iran, actual exports being 2·3 m.kgs in 1970 as against 2·0 m. kgs exported in the previous year. The biggest rise was thus in shipments to Sudan which emerged as the third largest buyer of Indian tea in 1970, thus regaining the position which it lost to U.A.R. in 1969. On the other hand, shipments to U.A.R declined in 1970 by 3 m. kgs. Because of shortage of cotton in the U.A.R, there were less exports to India from this country and as a result there was a shortage of rupee in U.A.R's credit (trade between India and U.A.R is regulated by bilateral trade agreement) which was perhaps the main reason why they have taken less teas. It is hoped that trade difficulties with U.A.R. will be removed in the near future enabling regular buying by that country. A sharp decline was noticed in the case of exports to Iraq also. Exports during 1970 were only 802 th. kgs as against 4·4 m.kgs exported in 1969. This was due partly to lower total imports by Iraq following higher imports in 1968 and 1969 in which years exports from India were also high and partly to the delay in making payments to exporters by the Iraqi Government Purchasing Board which acted as a disincentive for exporters of Indian tea to this market.

6. *Bilateral trade:* The proportion of India's tea exports sold under bilateral trade agreements was 35·25% in 1970 as against 44·57% in 1969 and 30·84% in 1968. The decline in the proportion of exports under bilateral trade agreement has been mainly due to the difficulties experienced by U.A.R. in purchasing teas and also due to lower offtake by Iraq (802th. Kgs in 1970 as against 4,423th kgs in 1969), Afghanistan (11 m.kgs in 1970 against 13 m.kgs in 1969) and Tunisia (3,543th. kgs in 1970 against 4,128th. kgs in 1969). The difficulties experienced in the case of exports to U.A.R and Iraq have been indicated earlier. As for Tunisia, our exports of tea depends basically on our purchase of rock phosphate from that country so that

the latter may be able to get sufficient resources to finance her purchase of tea in India. Government of India has been giving technical credit to this country [illegible] to purchase tea. From the export figure for 1970 which was [illegible] m.kgs. as [illegible] 1969 it appears that the credit was not enough to finance all the purchases of tea by [illegible]. A trilateral arrangement among India, Tunisia and Bulgaria under which [illegible] will be able to buy Rs. 24 million worth of tea during 1971 is now in force and it can be [illegible] that our exports to Tunisia will show a significant increase during the current year over 1970. The following table sets out our exports to countries with whom we have bilateral agreements [illegible]

U.S.S.R. and other East European countries have been taking [illegible] of Indian tea in recent years. In particular, the U.S.S.R. and Poland have asked for additional allocation over and above original trade plan provisions. It can [illegible] hoped that trade with these countries will show further [illegible] will continue to play a significant role in our total exports [illegible]

7. *Financial year basis:* Financial year wise also exports of tea have [illegible] 25.0 m.kgs. in terms of quantity and Rs. 23.7 crores in terms of value over the year [illegible]

The following table shows the exports of tea on both calendar [illegible]

A. Calendar year basis.

	1969	1970	Difference
Qty. (m.kgs.)	[illegible]	[illegible]	[illegible]
Value (Rs. Crores)	[illegible]	[illegible]	[illegible]
Unit value (Rs. per kg.)	7.11	7.11	—

B. Financial year basis.

	1969-70	1970-71	Difference
Qty. (m.kgs.)	174·1	199·1	+25·0
Value (Rs. Crores)	124·5	148·2	+23·7
Unit value (Rs. per kg.)	7·15	7·44	+ 0·29

The slight increase in unit value realisation is due to the higher unit prices fetched during the period January to March, 1971 compared to the same period of 1970. The quantity of tea exported during January to March, 1971 was 33·56 m.kgs. valued at Rs. 24.84 crores as against 40·43 m.kgs. valued at Rs. 26·99 crores exported during the corresponding period of 1970. Unit value realised during the period under reference was Rs. 7·40 per kg. in 1971 as against Rs. 6·68 in 1970.

8. *Green Tea:* India produces annually about 5 m.kgs. of green tea. Till 1968, Afghanistan was the Principal market for India's green tea exports. Since 1968, however, a substantial quantity of Indian green tea is also being exported to Morocco and smaller quantities to Japan and the U.S.A. Exports of green tea from India to Morocco, Japan and U.S.A. during 1969 and 1970 are given below:—

(Qty. in th.kgs.)

	1969	1970
Morocco.	879	812
U.S.A.	56	20
Japan.	39	27

Morocco is a large potential market for green tea. The production of green tea in India is not large and major portion of the green teas actually produced are not suitable for Morocco. Necessary machinery for producing green tea suitable for Morocco has now been installed in one factory in South India. Others have introduced modifications in their process to suit the Moroccan requirement. It is expected that it would be possible to produce more tea to cater to Moroccan trade in the near future.

As for Japan, imports have so far been confined only to a small quantity of high quality black tea used for blending with locally produced tea. The types of green tea required by Japan are different from those produced in India and require special techniques and equipments. Already a few tea factories have installed Japanese green tea manufacturing machinery Some experimental shipments have also been made and it is hoped that it will soon be possible to produce on a fairly large scale green tea suitable for export to Japan. To encourage producers of green tea, the excise duty on green tea produced in different zones was revised to a uniform rate of 10p. per kg. with effect from 22.3.1969. It is relevant to mention in this context that import of black tea in Japan has been freed from quota restrictions with effect from 1st August, 1971 and this should enable us to export larger quantity of better quality black teas to this market. It is only to be hoped that our exporters rise to the occasion and succeed in fully realising the potential.

9. *Package tea exports:* It is encouraging to note that the export of tea in consumer packets has been showing a steady upward trend in recent years. This is a welcome develop-

ment for increasing our foreign exchange earnings in as [illegible] by the *informal regulation of exports which came into operation in 1970* [illegible] to lead to a formal regulation of exports fixing quotas for [illegible] the years to come, higher unit realisations through export of [illegible] consumer packets is essential for maintaining a steady [illegible] level of [illegible] change earnings The total quantity and value of packet tea exported [illegible] from 1.5 m.kgs valued at Rs 1.11 crores in 19[illegible] to 2.4 m.kgs valued at [illegible] 1967 and again to 3.5 m.kgs and Rs 3.49 crores in 19[illegible] Due to the general [illegible] world tea markets and overall decline in total exports of tea from India the [illegible] packet tea exports has been slightly lower at [illegible] m.kgs valued at Rs [illegible] In 1970 however, packet tea exports have picked up again to nearly [illegible] valued at Rs 3.65 crores These packets have been exported mainly to Gulf Countries [illegible] Kuwait Saudi Arabia Jordan Sudan Nepal U.S.S.R. and Yugoslavia [illegible] packet tea have also been exported to France, Italy Belgium U.S.A. Poland Austria and Japan [illegible] exports in packets fetch higher amounts of foreign exchange per kg of tea exported [illegible] the case of export in bulk It may be mentioned in this context that the Government of India has decided to set up a National Tea Corporation in the public sector mainly [illegible] of exporting tea in consumer packets in both existing and potential markets

10 *Instant Tea and Tea Bags* Satisfactory progress in production and export of instant tea has been made in 1970 In 1970 a quantity of 316 th kgs of instant teas were [illegible] as against 226th kgs in 1969 The production of instant tea in India is from green leaf [illegible] in U.S.A. where it is produced from manufactured black tea At present there are [illegible] producing and exporting instant tea The exports were 318.7 th kgs valued at Rs [illegible] in 1970 as against 197.7 th.kgs valued at Rs 0.65 crores in 1969 These exports [illegible] to U.S.A. and U.K. Our instant teas have been very highly commented upon [illegible] in Europe and America and we look forward to obtaining a larger share of the [illegible] kets in U.S.A. and West European Countries

Another significant development is the manufacture in India [illegible] primarily for export These bags have met with keen demand in Europe and the [illegible]

11 *SALES*

The total quantity of leaf and dust teas sold at Calcutta auctions [illegible] were 102.8 m.kgs and 70.3 m.kgs respectively against 11[illegible] m.kgs [illegible] *tively in 1969-70 Similarly the quantity of leaf and dust teas sold at Cochin* [illegible] 1970 were 42.5 m.kgs and 2[illegible] m.kgs respectively against [illegible] At London auctions 50.3 m.kgs of North Indian teas and [illegible] were sold during *1970 as against 61.5 m.kgs and* [illegible]

Although the North Indian crop during the current season was [illegible] quantity of tea sold in Calcutta auctions showed a sharp decline from 18[illegible] m.kgs in [illegible] to 158.0 m.kgs in 1970-71 This steep decline was due to the [illegible] in Public Watehouses in January 1970 which culminated in a [illegible] some 785,000 chests of teas could not be released [illegible] there was a repetition of the same events and [illegible] men declared a closure as a result of which [illegible] up till the end of April 1971 and as a result [illegible] season

Sales of Indian tea through London auction were very low in 1970 mainly because of the low quantity of Indian tea shipped for London auction in 1969 as a result of the low prices realised in that year. The quantities of tea shipped to U.K. as direct exports and against private sales and forward contracts showed a marked rise in 1970 to 58·98 m.kgs. from 44·88 m.kgs. in 1969. With better shipments it is hoped that total sales of Indian tea through London auctions in 1971 will be of the order of 50·0 m.kgs. accounting for about one third of the total sales.

The total sales of Indian tea at various auction centres i.e. Calcutta, Cochin, Coonoor, Amritsar, Gauhati and London during 1970 season compared to 1969 are shown below:—

(Figs. in th. kgs.)

Auction centre	*1970*	*1969*	*Increase (+) or Decrease (—) in 1970 and 1969*

@ Figures for Calcutta relate to seasonal year. Includes 1970 teas sold in 1971-72 season.

The teas sold at the new auction centre opened at Gauhati in September, 1970 were about 8·9 m.kgs. of Assam teas during the season 1970-71. The Centre deals with Black teas mainly of Assam origin and the teas sold were mostly for internal comsumption.

12. *Direct Exports:* The remunerative prices obtained by producers in London auctions led to a marked rise in the quantity of unsold teas exported to U.K. in 1970 which was 58·98 m. kgs. compared to 44·88 m.kgs. in 1969. Detailed break-down of direct export of tea to U.K. other than those sold through the medium of auctions in India during 1970 compared to 1969 and 1968 may be seen from the table given below:—

13. *Prices:* There has been a general spurt in prices of tea in the world market during 1970. However, the increase in prices was not large enough to give cause for complacency.

The average prices fetched by teas at London auction has been steadily [illegible] since 1954, as will be seen from the following figures:—

Average price per lb of all teas sold at London auctions

(In pence per lb)

Year	*Price*
1954	[illegible]

Thus, there has been a decline of about 1.3 d per lb per annum between [illegible]

Average prices of leaf and dust teas sold at Calcutta auctions during 1970 were higher by 48 paise and 18 paise per kg. respectively compared to 1969-70 season. At Cochin auctions average prices of leaf and dust teas were higher by 59 paise and 71 paise per kg. respectively in comparison to 1969.

At London auctions, the average price of North Indian and South Indian teas during 1970 were higher by 5·2 and 8·8 new pence per kg. respectively.

It was only since November/December 1969, that there has been a sustained upward trend in London auction prices mainly as a result of depletion of London stocks from October, 1969 onwards. The recovery of prices has also been helped considerably by the psychological climate created by the informal agreement among exporters to cut down exports by 90 m.lbs. in 1970.

According to the trend of prices in the beginning of 1971 it is found that the statisfactory trend of prices in 1970 could not be maintained as stocks were again accumulating in London in the beginning of the 1971. However, the heavier shipments of tea from India during 1970 amounting to 51·2 m kg. as against 40·8 m kg. during the corresponding period of 1969 may result in a decline again the shipments of tea from India, mainly North East India, for London auctions during 1971-72 season. Producers in their anxiety to maintain prices would naturally like to keep supplies for London auctions restricted so that there is neither too much nor too little tea available in London auctions. Such action would avert a serious decline in prices of Indian tea at London auctions. The lower crop in Ceylon and East Africa as also the increased import requirement of Pakistan because of the Bangladesh situation would also, it is hoped, help in keeping prices at satisfactory levels during the 1971-72 season.

14. *Auction Centre at Gauhati:* As has been stated earlier the new auction centre opened at Gauhati in September, 1970 handled about 9 m.kgs. of teas, of which 8·9 m.kgs. were Assam teas. During the 1970-71 season eleven sales were held in the auction. The total quantities of leaf and dust teas offered were 4,548 th.kgs. and 4,550 th.kgs. respectively and the average prices realised were Rs. 5·79 and Rs. 5·57 (both inclusive of excise duty) respectively.

15. *Internal Consumption:* Internal consumption of tea in India has been steadily rising at the rate of about 4% to 5% per annum. It rose from 82·7 m.kg. in 1953-54 to 139·6 m.kg. in 1961-62. It dropped to 135·7 m.kg. in 1962-63 due to lower crop and higher exports but again recovered in 1963-64 when it reached the level of 140·7 m.kg. It again increased to 166·0 m.kg. in 1965-66 and further to 184·2 m.kg. in 1966-67. Following a decline to 180·7 m.kg. in 1967-68, it picked up again to 203·3 m.kg. in 1969-70.

The estimated internal consumption of tea in India for the last five years is set out below:—

Years	*Qty. (in m. kgs.)*
1965—66	166·0
1966—67	184·2
1967—68	180·7
1968—69	185·8
1969—70	203·3 (Provisional)

16 *Fiscal changes:* The major changes that have been brought about in the [illegible] budget for 1970-71 viz., total abolition of export duty with effect from 1-3-70 [illegible] rebate of excise duty at the export point to the extent of 70 [illegible] of the [illegible] value above the price of Rs. 5.25 per kg. but subject to a maximum of 75 paise per kg., the increased rates of excise duty etc. have already been discussed in the earlier publication of Tea Statistics [illegible] 1970.

The subsequent changes brought about in the fiscal structure are briefly discussed below :—

Tea manufactured in Bought leaf and Co-operative Factories in Zone [illegible] have been entitled to a reduction of 10% in the basic excise duty of Re. 1.00 per kg. w.e.f. 2[illegible]1970. Bought Leaf and Co-operative Factories along with all other factories in Excise Zones III, IV and V fetching average price of less than Rs. 5.00 per kg. were also given the concessional treatment of having to pay excise duty only @ 70 paise per kg. subject to certain conditions. The *conditions regarding eligibility for the concessional treatment referred to above* were relaxed on 15.12.1970 and simultaneously the duty payable by Co-operative Factories under the above circumstances was reduced from 70 paise to 63 paise per kg.

17 *World Supply and Absorption:* According to our provisional estimates total world supply of tea during 1970 was 903 m.kgs. while total world consumption was [illegible] m.kgs. which means a surplus of 8 m.kgs. in total supply over total absorption.

Supplies of tea in the world market increased by 31 m.kgs. rising to [illegible] m.kgs. from 869 m.kgs. in 1969 while absorption has also been higher by 35 m.kgs. to [illegible] m.kgs. in 1970 from 860 m.kgs. in 1969. Although total absorption has shown substantial rise in 1970, this has been lower than world supply as has been the position since 19[illegible].

The position of world supply and demand for tea from 19[illegible] to 1970 is given below.

(Figs. in m.kg.)

	1964	1965	1966	1967	1968	1969	1970	Percentage increase or decrease in 1970 over 1969
Total supply	792	814	825	826	871	[illegible]	[illegible]	[illegible]
Total absorption	796	804	[illegible]	840	[illegible]	[illegible]	[illegible]	[illegible]
Excess supply over absorption	—4	+10	—6	—14	[illegible]	+9	+8	

It will be seen that the gap between world supply and absorption [illegible] decrease. The substantial increase in world absorption has been [illegible] *apparent consumption of tea in the U.K.* [illegible] whose apparent consumption of tea has gone up [illegible] m.kgs. [illegible] 1969 thereby regaining the level of consumption [illegible] gone up in the case of Sudan who imported 19 m.kgs. in 1970 [illegible] 1969. Imports into Japan have also gone up from 11[illegible] m.kgs. [illegible]

18. *F.A.O. Meetings on Tea:* In the earlier issue of Tea Statistics 1969-70 we had stated that the Committee on Commodity Problems of the F.A.O. which met in Rome in October, 1969 had set up a formal Consultative Committee on Tea, the first meeting of which was held at Rome on 1st to 5th December, 1969, preceded by a meeting of producing countries on 28th and 29th November. The meeting was mainly concerned with the ratification of the agreement arrived at among the producing countries in the Mauritius meeting (July/August, 1969) which recommended that the world export quota in 1970 should be restricted to 594·8 m.kgs. India and Ceylon should have a joint share of 420·9 m.kgs. Following representations from some countries the matter was rediscussed in this conference and the total export quota was raised to 598·8 m.kgs. which with a possible shortfall of about 4 m.kg. would keep the effective quota at the same level as before. It was also agreed that any shortfall in excess of anticipated shortfall would be redistributed, Turkey having the first claim on it.

In the second session of the Consultative Committee on tea held in New Delhi during November/December, 1970 the exporters re-affirmed their agreement on the global quota for the calendar year 1971 and decided that the total export quota for 1971 should be the same as for 1970 with provision for an increase by not more than 10,000 tonnes should market conditions justify it. Both India and Ceylon forcefully made the point that in taking and decision regarding the manner in which the Ad-hoc arrangements put into operation in 1970 should be continued for 1971, the long-term objectives should be clearly kept in view. They emphasized the need for obtaining much better prices for teas exported by the tea exporting countries which are all developing countries and urged upon the tea importing countries which are all developed and highly affluent countries to give a fair deal to the tea-exporting countries.

A meeting of the standing Exporters' Group of the Consultative Committee on Tea was held at Rome during 5th to 8th April, 1971. The meeting discussed a report on the current situation and noted that world production and trade during 1970 had both been at a high level. Average prices at the London auctions during 1970 had recovered to the level of prices in 1967 but during the first three months of 1971 a downward trend had become apparent.

The meeting also heard from the two conciliators an interim report of their discussions with Governments and their suggestions regarding certain principles which might be considered in formulating a long-term arrangement.

In considering the arrangements for the immediate future, the meeting took note of the downward trend in prices so far in 1971, the high level of stocks in the United Kingdom and the reaction of the market to the high level of production and exports in 1970 and the possibility of another large harvest in 1971. It was also agreed that there should be a quota period running from the 1st January, 1971 to the 31st March, 1972.

For the calendar year 1971 the global quota was, however, left unchanged at 594·8th. metric tons, the total agreed at Mauritius for the 1970 arrangement. The quota for the full 15 months period was left to be decided at a review session of the Group to be held about the second half of September, 1971. It was further agreed that any individual quotas would not be definitive figures which would commit countries from the point of view of a future long-term agreement.

Great importance was placed by the meeting on establishing means for keeping the market situation under continuing review. The FAO Secretariat was requested to circulate

a brief information note every two months to highlight the important [illegible] tea market

The next session of the Standing Exporters' Group was held at R[illegible] September, 1971 It was proposed in this meeting that a global exp[illegible] 7[illegible] thousand metric tons of tea may be fixed for the period from 1st January 1971 [illegible] 1972 Subject to individual Government approval the meeting proposed [illegible] national quotas (figures in thousand metric tons) for the fifteen [illegible] period [illegible] 71 to March'72

India and Ceylon combined, 506, *Indonesia* 48, *Kenya* 47 [illegible] *Malawi* 27 Mozambique 25, Argentina 21 6, Democratic Republic of the Congo 11 5, Turkey 11 [illegible] nia 10, Mauritius 1 2, Taiwan 3, Rwanda 2 5, Cameroon 0 7 South Vietnam 0 2 [illegible] These add upto 712 4 million kgs It was also felt that there is likely to be [illegible] 11 8 million kgs so that the actual level of exports would be of the order [illegible] 72[illegible] kilograms

10 *Future Prospects:* The export regulation scheme which came into [illegible] a psychological impact on world prices This coupled with the fiscal incentives [illegible] cers in the 1970 71 Budget with a view to increasing production of better quality teas [illegible] discouraging domestic consumption of quality teas promises to lead the tea [illegible] into an era of higher production and higher exports

In order to meet the increasing internal demand and yet to make [illegible] of tea available for exports, it is envisaged that a 3 [illegible] growth rate in production [illegible] maintained The target for production in the year 1973 74 has been set at [illegible] *level of production expected in India during the current year is* [illegible] anticipated domestic consumption of 210 m kgs it should have been possible [illegible] raise her exports to 220 m kgs Shipping difficulties dislocation in transport [illegible] *in North East India and lastly the national emergency from the beginning [illegible] December [illegible]* however, upset export schedules to some extent Nonetheless it is hoped that [illegible] to make up the shortfall and fulfil our export quota for the period 1st January [illegible] March, 1972 Prospects for the coming years are however uncertain [illegible] will be governed primarily by the quotas allotted to India under the export [illegible] scheme

II Changes in duties and taxes with effect from 6. 6. 66 following devaluation.

The export duty on tea which was totally abolished on 1.3.63 was re-imposed with effect from 6th June, 1966 at the rate of Rs. 2 per Kg. following devaluation.

On the 11th November 1966, the Government revised export duty changing it from a flat rate of Rs. 2/- per Kg. to a graded scale based on value as given below:

Description	Rate of duty
(a) Tea, value of which does not exceed Rs. 4/- per Kg.	80 Paise per Kg.
(b) Tea, value of which exceeds Rs. 4/- per Kg. but does not exceed Rs. 8/- per Kg.	80 Paise per Kg. plus 10 Paise per Kg. for every 50 Paise or part thereof in value in excess of Rs. 4/- per Kg.
(c) Tea, value of which exceeds Rs. 8/- per Kg. but does not exceed Rs. 12/- per Kg.	Rs. 1.60 per Kg. plus 15 Paise per Kg. for every 50 Paise or part thereof in value in excess of Rs. 8/- per Kg.
(d) Tea, value of which exceeds Rs. 12/- per Kg.	Rs. 3/- per Kg.

Changes in 1967-68 Budget

The Budget for 1967-68 envisages an increase of excise duty on tea in general for all Zones. But there has also been a corresponding reduction in the export duty. The new rates of Central excise duty and export duty effective from 25.5.67 are given as follows:—

(A) Excise duty on tea per kg.

	Previous	New rates effective from 25.5.67
Zone I		
(a) Green tea	12 Paise	12 Paise
(b) Other ..	18 ,,	30 ,,

(b) Tea, the value of which exceeds Rs. 8/- per Kg. but does not exceed Rs. 10/- per Kg.	21% ad-valorem reduced by 24 Paise per Kg.
(c) Tea, the value of which exceeds Rs. 10/- per Kg.	22½% ad-valorem reduced by 24 Paise per Kg. or Rs. 2.76 per Kg. whichever is less.

(C) New cess of tea imposed with effect from 10.6.67

The Government has imposed a new cess of 4 Paise per Kg. on all teas produced in India from 10th June, 1967. This replaces the cess at the rate of 4.4 Paise per Kg. hitherto levied only on teas exported.

(D) Relief granted to Co-operative and Bought leaf tea factories

The ministry of finance in their notifications dated 4th July, 1967 has granted a concession in the rate of Excise duty payable by co-operative and Bought leaf tea factories.

Co-operative factories are to be exempted from 10% of the Basic Excise duty and from the whole of Special Excise duty while other Bought leaf factories are exempted from the whole of the Special Excise duty only. This replaces the previous orders which came into effect from 27th November, 1965.

(E) Exemption of instant tea from the Payment of Export duty

Instant tea is exempted from Export duty with effect from 22nd July, 1967.
